Multiple Lobe Tanks

- Molded plastic tanks safe for potable water
- Ideal for basements or other confined spaces
- Unique multiple lobe design provides a tall, narrow footprint with negligible distortion for maximum storage in minimal floor space
- Less cost than three 200 gallon tanks and no fittings are required between tanks
- Single piece molded construction has connectors to allow water to flow between compartments
- Multiple tanks may be banked and interconnected to provide a safer, large volume, slosh free transport tank option
- Optional 8" vented lid available

Description	Capacity		Dimensions	Brand	Part Number
	IMP Gal	US Gal			
Large Compact Multiple Lobe Tank	600	720	30"W x 97"L x 78"H	QMP	60152-1
