

Water Treatment & Purification Chemicals

Water Treatment Cleaning Chemicals

Super Iron Out - Powder Form

- Powder form, must be dissolved in water to work
- Dissolves lime, rust, calcium, soap scum & mineral deposits below the waterline
- Cleans toilet bowls, fiberglass and acrylic tubs, showers and spas
- Works on dry surfaces and can be used on white clothes only for entire garment treatment
- Can be used in water softeners

Description	Size	Brand	Part Number
Super Iron Out	5 lb	Iron Out	25-02
Super Iron Out	28 oz	Iron Out	25-08

Lime Out

- Heavy duty rust, lime, calcium stain remover
- Easily dissolves tough hard water and rust stains
- Concentrated formula works fast and is safe to use on a variety of applications both indoor and outdoor

Description	Size	Brand	Part Number
Lime Out	24 fl oz	Lime Out	25-L024

Water Treatment & Purification Chemicals

Water Treatment Chemicals

Chlorine Shock Treatment

- Disinfects and destroys disease-causing organisms found in water
- Can be used on new wells, wells that have had service work, cisterns, storage tanks, water lines and swimming pools

Description	Size	Brand	Part Number
Dry Granular Chlorine	5 pouches x 454g	HTH Sock It®	CHYP18

Muriatic Acid

- Removes scale, cleans metal and adjusts pH
- Will not harm metals

Description	Size	Brand	Part Number
Muriatic Acid	4 L	-	MA4

Water Treatment & Purification Chemicals

Water Treatment Chemicals

Potassium Permanganate

- Regenerates and oxidizes greensand iron filter media
- Strong oxidizing agent that converts dissolved iron and/or manganese to insoluble oxides, which can be easily removed by filtration
- Composed of NSF certified material to meet Standard 60 (drinking water treatment chemicals)
- May be added directly to the filter or mixed with water and added as a solution

Description	Size	Brand	Part Number
Potassium Permanganate	10 lb	Pot Perm	KP10N

Resin Cleaner

- Penetrates the resin bead pores to free accumulated iron and other impurities and protects against water softener component malfunctions caused by scale or other build-up

Description	Size	Brand	Part Number
Resin Cleaner	1 Gallon	Pro Res Care®	RK41N
Resin Cleaner	1 Quart	Pro Res Care®	RK32N

Automatic Resin Feeder

- Meters the appropriate volume of resin cleaner each time the resin bed is regenerated and can be programmed for the size of resin bed and quantity of iron or other impurities in the untreated water
- Easy to install and operate

Description	For Softeners	Brand	Part Number
Resin Feeder	Up to 1 cu ft	Res Up®	S6304
Resin Feeder	Over 1 cu ft	Res Up®	S6305

Water Treatment & Purification Chemicals

Water Treatment Media

Birm

- Efficient and economical media for the reduction of dissolved iron and manganese compounds from raw water supplies
- Can be used in gravity fed or pressurized water treatment systems
- Regeneration not required, only periodic backwashing required
- Durable material with a long life and a wide temperature range
- Extremely high iron removal efficiency

Description	Size	Part Number
Birm	1 cu ft, 44 lbs	A8006
	0.5 cu ft	A80061/2

Calcite

- Used to neutralize acidic or low pH water

Description	Size	Part Number
Calcite	0.5 cu ft, 50 lbs	A8021-01

Carbon

- **Activated Carbon:** Used in water softeners to eliminate taste, odor, color and toxicity. NSF & WQA Certified.
- **Centaur Carbon:** For general taste and odor removal as well as chlorine, chloramine and hydrogen sulfide reduction

Description	Size	Part Number
EcoCarb™ Coconut Shell Based Activated Green Carbon, 12x40 Mesh	1 cu ft	ECOC12X40-1
	0.5 cu ft	ECOC12X401/2
Centaur Catalytic Granular Activated Carbon, 12x40 Mesh	1 cu ft	A8056
	0.5 cu ft	A80561/2

Corosex

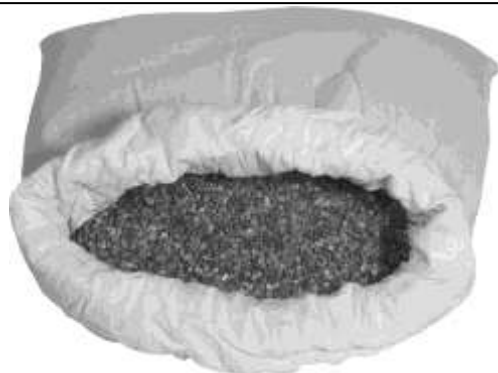

- Used to neutralize acidic or low pH water

Description	Size	Part Number
Corosex	0.66 cu ft, 50 lbs	A8011

Water Treatment & Purification Chemicals

Water Treatment Media

Gravel Bed

- Used in water softener & filter beds
- Used as a support to keep smaller medias out of the distribution system and to stop channeling of water

Description	Size	Part Number
Medium Grade Gravel Bed	0.5 cu ft	GRIT2-50
	0.25 cu ft	GRIT2-1/2

nextSand™

- Used in water filters, this high performance, long lasting media has unique properties to provide more than twice the capacity of multimedia filtration
- High filtration performance; 3-5 micron removal

Description	Size	Part Number
Water Filter Media	1 cu ft	NEXSAND
	0.5 cu ft	NEXSAND-1/2

Resin

- Used in water softeners for hardness reduction
- Suited for household, municipal and industrial water treatment
- Provides longer runs between backwashes, higher flow rates without head loss, lower backwash water pressures and/or quantities, a greater utilization of the bed mass for filtration, and a volumetric higher surface area than silica and quartz sands and gravel

Description	Size	Part Number
Purolite® Fine Mesh Strong Acid Gel Polystyrene Cation Exchange Resin	1 cu ft	C-C100EFM
IonPlus™ Fine Mesh Strong Acid Gel Polystyrene Cation Exchange Resin	1 cu ft	IONPLUSCA-16
High Capacity Standard Strong Acid Gel Polystyrene Cation Exchange Resin	1 cu ft	C108DQ
	0.5 cu ft	C108DQ1/2
